EDUCATION

- **Indian Institute of Information Technology** Lucknow, India
Bachelor of Technology - Computer Science Aug 2025 - Jun 2029
—*Relevant Coursework: Web Design, Database Management Systems (DBMS), Object Oriented Programming, Data Structures, Computer Organization and Architecture*
- **La Martiniere College** Lucknow, India
Indian Secondary Education (ISC) Class 12th Percentage: **90.1%**
Subjects: Physics, Chemistry, Mathematics, English, Computer Applications
Jun 2022 - Mar 2024
- **La Martiniere College** Lucknow, India
Indian Council for Secondary Education (ICSE) Class 10th Percentage: **97%**
Jun 2021 - Mar 2022

SKILL SUMMARY

- **Languages:** C++, C, Java, JavaScript, Bash, SQL (Basic), RUST, Solidity
- **Frameworks:** Bootstrap, React, ExpressJs
- **Platforms & Tools:** macOS, Windows, MySQL, GitHub, Git, VS Code
- **Soft Skills:** Leadership, Collaboration, Communication

PROJECTS

Aap Ki Adalat — Decentralized Arbitration Platform (Team Lead, Hackofiesta v7)

- Led a team of **4 developers** to architect and build a comprehensive **Web3 escrow and dispute resolution platform**
- Developed multiple pages including **Home, Escrow Dashboard, Juror Panel, Staking, Profile, and Case Details**
- Implemented smart contract modules covering **secure fund locking, milestone tracking, and decentralized voting consensus**
- Designed **IPFS evidence upload interfaces and real-time transaction history tracking** for platform users
Tech Stack: React, Tailwind CSS, JavaScript, Solidity (Escrow, Dispute, Staking & Evidence Contracts), Wagmi, Viem, IPFS

ELEV8 — Fitness & Wellness Platform (Team Lead, 10-member group project)

- **Architected the core backend infrastructure**, bootstrapping the Spring Boot REST API, configuring Maven dependencies, and managing MySQL database connections.
- **Engineered an automated WhatsApp bot** using the Twilio API and Ngrok tunneling; implemented a custom string-parsing algorithm to instantly deliver diet and workout routines via chat.
- **Developed dynamic frontend modules** including the Home, Premium, and About pages, alongside interactive wellness interfaces for diet, yoga, and calisthenics tracking.
- Designed **user registration interface and health goal selection forms** for community members
Tech Stack: Java, Spring Boot, React, MySQL, Twilio SDK, Firebase, HTML/CSS

Gumasto — AI Retail Intelligence Platform (Microsoft Imagine Cup 2026 Submission)

- Collaborated in a team to develop **Gumasto**, an AI-powered platform helping retailers optimise **inventory management, pricing strategies, and demand forecasting**
- Built modules for **inventory risk detection, dynamic discounting, demand prediction, waste management, and shelf placement optimisation**
- Developed frontend components and contributed to system architecture; backend APIs were implemented though full frontend-backend integration was not completed
Tech Stack: HTML, CSS, JavaScript, Node.js, Express, Python, MongoDB

ACHIEVEMENTS

- **CodeChef** : Accomplished a 2-★ title with a best rating of **1554** **prakkkkhar**
- **Codeforces** : Pupil at Codeforces with a max rating of **1247**, with more than **550 problems** **prakkkkhar**

POSITIONS OF RESPONSIBILITY

- **Instrumentalist (Guitar) - Estrella, Music Society, IIIT Lucknow**
 - Contribute as a guitarist in society performances and musical collaborations during institute events and cultural activities
